Year 1 maths: Adding the same number again (Easy)

Maths · Number · Level: Easy

Student: _____ Date: _____

Instructions
- There are 10 questions. Read each one carefully.
- Write your answers on this paper. Use the space under a question to work it out.
- A grown-up can read a question aloud — that's fine.
- The answers are at the end. Check them together when you have finished.

Questions

1. Ella has 4 bowls. She puts 3 cherries in each bowl. How many cherries are there altogether?

Answer: ☐ cherries

Working:

2. Nina put cupcakes on 3 plates. How many cupcakes are there in total?

Answer: ☐ cupcakes

Working:

Answer: _____ grapes

Working:

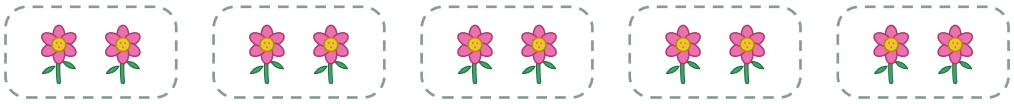

6. Mia has 3 bags. There are 2 apples in each bag. Which sum shows how many apples there are?

Circle one answer.

○ **A** 3 + 2 ○ **B** 2 + 2 ○ **C** 2 + 2 + 2

7. Each pot has 2 flowers in it. How many flowers are in all the pots?

Answer: _____

Working:

8. There are 2 plates with 3 apples on each plate. How many apples altogether?

Answer: _____

Working:

9. There are 3 plates with 4 flowers on each plate. How many flowers altogether?

Answer: _____

Working:

10. There are 4 plates with 5 cupcakes on each plate. How many cupcakes altogether?

Answer: _____

Working:

Answer key

Year 1 maths: Adding the same number again (Easy) · Sheet 354165

1. 12 cherries
3 + 3 + 3 + 3 = 12.

2. 12 cupcakes
4 + 4 + 4 = 12.

3. 18 pages
3, 6, 9, 12, 15, 18.

4. 20 children
4 + 4 + 4 + 4 + 4 = 20.

5. 20 grapes
5 grapes for each of 4 friends: 5 + 5 + 5 + 5 = 20.

6. C — 2 + 2 + 2
There are 3 bags, so we add 2 three times: 2 + 2 + 2 = 6 apples. 3 + 2 mixes up the number of bags and the number in each bag.

7. 10
There are 5 pots with 2 flowers in each. 2 + 2 + 2 + 2 + 2 = 10. Counting by 2s: 2, 4, 6, 8, 10.

8. 6
Add 3 for each plate: 3 + 3 = 6.

9. 12
Add 4 for each plate: 4 + 4 + 4 = 12.

10. 20
Add 5 for each plate: 5 + 5 + 5 + 5 = 20.
