Answer key

Year 2 maths: Numbers to 1000 (Medium) · Sheet 194791

1. 800 pencils

3 hundreds and 5 hundreds make 8 hundreds: 300 + 500 = 800.

2. 461

Adding 1 hundred changes only the hundreds digit. 3 hundreds becomes 4 hundreds; the 6 tens and 1 one stay: 461.

3. 508

5 hundreds is 500. There are 0 tens, so write a 0. Then 8 ones: 508.

4. D — 603

Sort the parts: 6 hundreds, 0 tens, 3 ones. That is 603.

5. A — 60

60 has only two digits, so it has no hundreds. 106 and 160 have 1 hundred, and 1000 is one thousand, the biggest of all. 60 is the smallest.

6. C — six hundred and nine

609 is 6 hundreds, 0 tens and 9 ones. There are no tens, so it is six hundred and nine.

7. A — 500

500 is just 1 more than 499. 400 is 99 less, 940 is far bigger, and 49 is only forty-nine. 500 is closest, even though it has 5 hundreds.

8. 250

230 to 270 is 4 jumps of 10. Half of them is 2 jumps: 240, 250. 250 is 2 jumps from each end.

9. B — 515; C — 529; E — 503

515, 529 and 503 are all bigger than 500 and smaller than 530. 500 is not more than 500, and 530 is not less than 530.

10. C — 300

270 to 330 is 60. Half of 60 is 30, and 270 + 30 = 300. Check: 300 to 330 is 30 too.
