Year 3 maths: Place value to 100 000 (Easy)

Maths · Number
Level: Easy

Student: _____ Date: _____

Instructions
- There are 10 questions. Read each one carefully.
- Write your answers on this paper. Use the space under a question to work it out.
- A grown-up can read a question aloud — that's fine.
- The answers are at the end. Check them together when you have finished.

Questions

1. What is the value of the 6 in 36 481?

Circle one answer.

○ **A** 60 000 ○ **B** 600 ○ **C** 6 ○ **D** 6000

2. How many whole thousands are in 5864?

Answer: ☐ thousands

Working:

3. Which number is 1 less than 7010?

Circle one answer.

○ **A** 7009 ○ **B** 7011 ○ **C** 7000 ○ **D** 7019

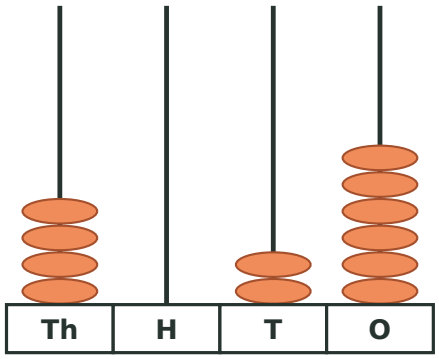

4. What is 1000 less than 6615?

Answer: ☐

Working:

5. Which number is on the abacus?

Circle one answer.

○ **A** 426 ○ **B** 4026 ○ **C** 40 260

6. I have 3 ten thousands, 4 thousands, 0 hundreds, 2 tens and 5 ones. What number am I?

Answer: ☐

Working:

7. Which number is 10 more than 4392?

Circle one answer.

○ **A** 4402 ○ **B** 4393 ○ **C** 4302 ○ **D** 4382

8. What is 100 more than 3450?

Answer: ☐

Working:

9. What number comes immediately after 48 399?

Answer: ☐

Working:

10. Which number is 1000 more than 24 960?

Circle one answer.

○ **A** 25 060 ○ **B** 25 960 ○ **C** 24 970 ○ **D** 34 960

Answer key

Year 3 maths: Place value to 100 000 (Easy) · Sheet 860161

1. D — 6000
The 6 is in the thousands place, so it is worth 6000.

2. 5 thousands
5864 has 5 whole thousands, because 5000 is 5 lots of 1000.

3. A — 7009
7010 - 1 = 7009. The digit passes 9 or 0, so trade with the next place.

4. 5615
6615 - 1000 = 5615.

5. B — 4026
Read the spikes from the left: 4026. A spike with no beads is a 0.

6. 34 025
Write each digit in its place: 34 025. The 0 keeps the places in line.

7. A — 4402
4392 + 10 = 4402. The digit passes 9 or 0, so trade with the next place.

8. 3550
3450 + 100 = 3550.

9. 48 400
Add 1 to 48 399. The 9s in the ones and tens places make a new ten and a new hundred, so the answer is 48 400.

10. B — 25 960
Adding 1000 adds 1 to the thousands digit only. 24 960 + 1000 = 25 960.
